

Table of Contents

1	Forestry: An Introduction	1
1.1	Introduction	1
1.2	Definition of Forest and Forestry	2
1.3	Forest and Forestry Classification	4
1.3.1	Geographic Delimitation and Varieties of Tropical Forests	4
1.3.2	Tropical Rainforests	5
1.3.3	Lowland Evergreen Rainforests	6
1.3.4	Semi-evergreen Rainforests	6
1.3.5	Tropical Dry Deciduous Forests	7
1.3.6	Montane Rainforests	7
1.3.7	Heath Forest	8
1.3.8	Mangrove Forests	8
1.3.9	Tropical Land Masses	9

1.3.10	Tropical Forest Characteristics	9
1.4	Branches of Forestry and their Relations	18
1.5	Definition, Objectives and Scope of Silviculture	20
1.5.1	Definition	20
1.5.2	Objectives	22
1.5.3	Scope of Silviculture	24
1.6	Status of Forests and their Role	25
1.6.1	The Role of Forests, Trees and Wild Biodiversity for Nutrition-sensitive Food Systems and Landscapes	25
1.6.2	The Role of Forests in the Preservation of Biodiversity	26
1.6.3	The Role of Forests and Forestry in the Prevention and Rehabilitation of Landslides	28
1.7	Human Interactions with Forest	30
1.8	History of Forestry Development	31
2	Sustainable Forest Management	35
2.1	Introduction	35
2.2	Forest Management – An Art and Science	36
2.2.1	Forestry as an Art	37
2.2.2	Forestry as Science	37
2.2.3	The Crossroads between Art and Science	38
2.3	Importance of Forest Management	39
2.3.1	Areas and Objectives of Forest Management	42
2.3.2	Management of the Earth's Biological Diversity	43
2.3.3	Management of Ecosystem Services Provided by Forests	45
2.3.4	Complementary and Competitive Strategies	47
2.3.5	Balanced Management and Priority Issue Management Strategies	48
2.3.6	Tangible and Intangible Aspects of Management	50
2.3.7	Multiplicity and Complexity	54
2.4	Management of Forest Plantations and Forest Cover Monitoring	58
2.4.1	Operational Monitoring	59
2.4.2	Strategic Monitoring	60

3	Forest Ecology	62
3.1	Introduction	62
3.2	Forest Eco-systems	63
3.2.1	Types and Characteristic Features	65
3.2.2	Structure of Forest Ecosystems	68
3.3	Plant Community Concepts	69
3.3.1	Characteristics of Plant Community	70
3.3.2	Vertical Stratification of Plant Communities	70
3.3.3	Development of Plant Community	72
3.4	Ecological Succession and Climax Community	77
3.5	Nutrient Cycling and Water Relations	81
3.5.1	Water Cycle and Nutrient	84
3.5.2	Oxygen Cycle	85
3.5.3	Carbon Cycle	86
3.5.4	Nitrogen Cycle	88
3.6	Physiology in Stress Environments	89
3.6.1	Drought Stress	91
3.6.2	Water Logging Salinity and Alkalinity in Plants	92
3.7	Conservation of Forest Ecosystems	96
3.7.1	Importance and Ways to Conserve the Forest	97
4	The Environmental Value of Forests	100
4.1	Introduction	100
4.2	Environment: Components and Importance	101
4.2.1	Meaning and Definition	102
4.2.2	Atmosphere	105
4.2.3	Hydrosphere	108
4.2.4	Lithosphere	109
4.2.5	Biosphere	110
4.2.6	Importance of the Subject	111
4.3	Principles of Environmental Management and Conservation	112
4.3.1	Polluter Pays Principle (PPP)	112
4.3.2	The User Pays Principle (UPP)	113
4.3.3	The Principle of Precaution (PP)	113
4.3.4	Principle of Efficiency and Effectiveness	114
4.3.5	The Principle of Responsibility	114

4.3.6	The Principle of Participation	114
4.4	Impact of Deforestation	114
4.4.1	Climate Change	116
4.4.2	Losses and Flooding of Water and Land Resources	117
4.4.3	Reduced Biodiversity, Habitat Loss, and Conflicts	118
4.4.4	Economic and Social Consequences	119
4.5	Forest Fires and Various Human Activities	120
4.5.1	Mining	120
4.5.2	Urbanization/Industrialization and Infrastructure	121
4.5.3	Overpopulation and Poverty	122
4.5.4	Logging and Fuelwood	123
4.5.5	Overgrazing	124
4.5.6	Economic Causes - Developments/Lands Conversion Value, Fiscal Policies, Consumerism and Markets	124
4.6	Role of Trees and Forests in Environmental Conservation	126
4.6.1	Role of Forests in Maintaining Air Quality	128
4.6.2	Role of Forests in Water and Soil Management and Conservation	129
4.6.3	Role of Trees and Shrubs in Rainfall and Water Supply	130
4.6.4	Roles of Forest in Maintaining Water Cycle	130
4.6.5	Forests Control Floods	132
4.6.6	Forests Protect Soils and Reduce Forest Erosion Rates	133
4.6.7	Trees and Forest Aid to Regulate Stormwater	134
4.6.8	Role of Forest in Noise Pollution	136
5	Regeneration of Forests	138
5.1	Introduction	138
5.2	Forests Regeneration: Objectives and Ecology	139
5.3	Natural Forest Regeneration	142
5.3.1	Process of Natural Regeneration	142
5.3.2	Requirement for Natural Regeneration	146
5.3.3	Importance and Potential of Natural Regeneration	147
5.3.4	Natural Regeneration Planning and Implementation	149
5.3.5	Disadvantages of Natural Regeneration	151

5.4	Artificial Regeneration	153
5.4.1	Regeneration by Artificial Method	153
5.4.2	Artificial Regeneration by Vegetative Method	156
5.4.3	Scope and Objectives of Artificial Regeneration	158
5.4.4	Merits and Demerits of Artificial Regeneration	158
5.5	Factors Affecting the Choice of a Method of Regenerating Forest	159
5.5.1	Factors Affecting Artificial Regeneration	159
5.5.2	Factors Affecting Natural Regeneration	159
5.5.3	The Hypothetical Contradiction between Natural and Artificial Regeneration	161
5.6	Tree Planting: Process and Management	166
5.6.1	Identifying Explanations for Planting Trees	166
5.6.2	Site Evaluation	166
5.6.3	Careful Handling of Tree Seedlings	167
6	Forest Features of Hydrologic Significance	170
6.1	Introduction	170
6.2	The Role of Forests in the Hydrological Cycle	172
6.2.1	Forest and the Hydrological Cycle	173
6.2.2	Soil Organic Matter	176
6.2.3	The Role of Roots in Hydrological Significance	180
6.2.4	Plant and Animal Life and Sheltering	181
6.3	Hydrological Processes Affected by Forest Lands	182
6.3.1	Effects of Forest on Annual Runoff	185
6.3.2	Effects of Forests on Floods	186
6.3.3	Erosion and Sedimentation	187
6.3.4	Influence of the Forest on Water Quality	187
6.4	Hydrological Evaluation of Land Treatment	188
6.4.1	Rapid Infiltration Land Treatment	188
6.4.2	Evaluation by Infiltration Procedure	190
6.5	References	194
7	The Multiplicity of Agroforestry Products and Services	195
7.1	Introduction	195
7.2	Forests and their Ecological Importance	196
7.2.1	How the Forest Works?	198
7.2.2	Forest Benefits	198

7.2.3	The Issue of Non-sustainable Use	200
7.2.4	Sustainable Use of Forests	202
7.3	Economic and Cultural Considerations	204
7.3.1	Forest Economy and its Challenges	210
7.4	Cultural and Social Aspects of Forests	214
7.4.1	Adore and Adoration of Trees	214
7.4.2	Sacred Groves	215
7.4.3	Traditional Knowledge and Traditional Medicine	219
7.4.4	Traditional Knowledge and Climate Change	221
7.5	Socio-economic Impact of Agroforestry	222
7.5.1	Social Parameters	223
7.5.2	Economic Parameters	223
7.6	References	224
8	Forest Protection & Wildlife Biology	226
8.1	Introduction	226
8.2	Important Diseases and Insect Pests of Nurseries	228
8.2.1	Occurrence of Disease and Pest in Plantations and Natural Forests	230
8.2.2	Exotic Species Plantations	232
8.2.3	Indigenous Pests and Diseases	233
8.2.4	Exotic Pests and Disease	234
8.2.5	Managing Pests and Diseases	240
8.3	Assessment of Losses because of Diseases	246
8.4	Insect Pests and Mycoflora of Seeds of Forest Trees and their Management	248
8.4.1	Damage	248
8.4.2	Diagnosis	248
8.4.3	Biology	248
8.4.4	Control	249
8.5	Biological Control of Insect Pests and Diseases of Forest Trees	249
8.6	Molecular Tools for Developing Disease Resistance Trees	251
8.6.1	DNA Hybridization Technology	252
8.6.2	Isothermal Amplification Processes	252
8.6.3	Polymerase Chain Reaction (PCR)	252
8.6.4	Fingerprinting	253
8.6.5	Sequencing	253

9 Forest Fires: Its Causes and Prevention	255
9.1 Introduction	255
9.2 Classification of Injurious Agencies	257
9.3 Injury to Forest due to Fires	259
9.3.1 Causes and Characteristics of Forest Fires	259
9.3.2 Types of Forest Fire	264
9.3.3 Forest Fire and its Impacts	265
9.3.4 Fire Prevention Activity	266
9.3.5 Forest Firefighting Crews and Equipment	267
9.3.6 Fire Control Policy and Objectives	271
9.4 Firefighting in Other Countries	274
9.5 Injury to Forest due to Man	276
9.5.1 Lopping	276
9.5.2 Encroachment and its Control	278
9.6 Forest Weeds and Weed Management Practices	278
9.6.1 Weed Management and Control	280
9.7 Herbicides	283
9.7.1 Action Mechanisms	283
9.7.2 Herbicide Selectivity	284
9.7.3 Herbicide Degradation	285
9.7.4 The Toxicity of Herbicides	285
9.7.5 The Environmental Impact of Herbicides	286
Index	289
